

Actual Utah Valley
Dental Lab Restoration

A personal message **to your patient** from the owner of Utah Valley Dental Lab.

*Please hand this card to your patient.
Thanks.*

When a great dentist teams up with a great lab the result is awesome.

“Hi. I realize we’ve never met, but thanks in advance for reading this short personal note. I suspect you’re sitting in a dental chair anticipating the beautiful dental restoration your dentist has designed especially for you.

May I congratulate you for having chosen a dentist (an artist, really) who understands the direct benefit to you that results from working with an exceptional lab.

Dozens of details—from determining the appropriate build up technique and materials, to fashioning the proper shape and fit, to refining the desired translucency and color shade—have been carefully and thoughtfully worked out between your dentist and our lab. All with one thing in mind... a gorgeous end result for you. The result you’re about to see.

So, give your dentist a hug and a big ‘thanks!’ That is, thanks for caring enough about your smile to insist on working hand-in-hand with one of the very best labs in the world. Enjoy!”

Sincerely,
Richard Willes
Owner, Utah Valley Dental Lab
