

Our 10 Beliefs

Utah Valley Dental Lab's Commitment to Dental Practices

- We believe that our deliverables are dental restorations, but our product is our service.
- We believe that timeliness is next to godliness.
- We believe that if something goes amiss, it's always *our* fault... Unless you admit fault... In which case, we'll flip you for it.
- We believe that a great lab does everything in its power to make *you* the hero in your patients' eyes.
- We believe that methodically embracing new technologies helps us both do what we already do, better.
- We believe in blowing your nest egg. Make your kids earn their own. It builds character.
- We believe that you're more interested in our *value* than in our pricing.
- We believe that trust extends beyond lip service.
- We believe that working with our lab makes you look younger and feel thinner.
- We believe that making your job easier builds both of our businesses.

We teamed up with
Dr. Aneszko (*Water Tower
Dental Care of Chicago*)
to create J.P. Cole's
fantastic new smile.
