Anterior Chairside Preparation Guide

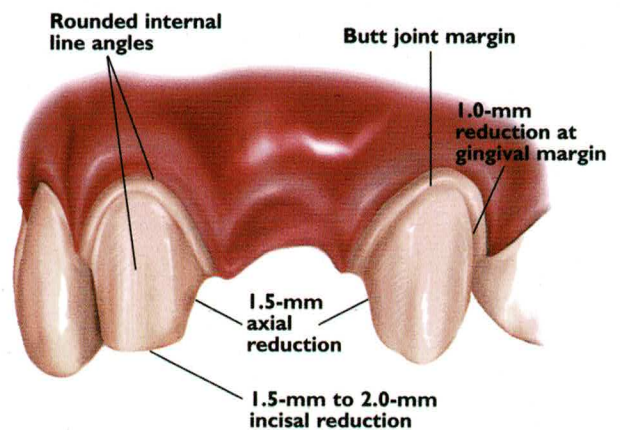

Full-Coverage Restorations

ANTERIOR CROWN PREPARATION

3-Unit Bridge Restorations

3-UNIT BRIDGE PREPARATION

Veneers

VENEER PREPARATION

A medium grit, round-ended, diamond bur is used to remove a uniform thickness of facial enamel by joining the depth-cut grooves.

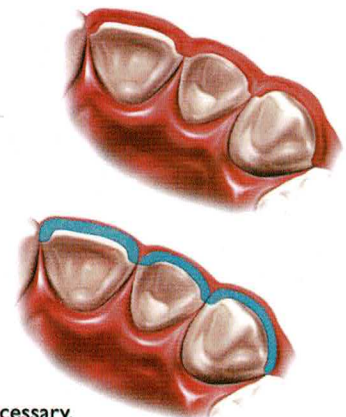

INCISAL PREPARATION

The diamond bur is angled to bevel back the incisal edge.

CHAMFER MARGINS

Correct preparation of the chamfer margins interproximally allows the appropriate bulk of porcelain.

*Please note: For additional masking capabilities and/or layering techniques, further reduction may be necessary. Contact your laboratory for further information.

Inlays/Onlays

INLAY PREPARATION

ONLAY PREPARATION

3-Unit Bridge Restorations

3-UNIT BRIDGE PREPARATION

Full-Coverage Restorations

POSTERIOR CROWN PREPARATION

CONVENTIONAL CEMENTATION PREPARATION

When layered or pressed ceramic margins are preferred in conjunction with a zirconia framework, enhanced gingival esthetics can be achieved with a definitive 90 degree shoulder preparation.
